If you want to support me you can now **nominate me and my designs** for the **Printables Awards 2025! :)**

The Corner Mount – Invisible is a minimal and functional wall or shelf support designed to fit perfectly into 90° corners. It features a strong extruded triangular shape with **three screw holes (Ø 3 mm)** for secure mounting.

To keep your setup clean, the design includes a **snap-on cover plate** that hides the screws completely — leaving a smooth and professional finish.

Perfect for small shelves, corner panels, or decorative mounts where you want a strong yet invisible connection.
